

## **Printing PDFs**

### **To Print All Pages within PDF**

- File / Print
- Make sure that the "All" button is selected.
- Click Print.

### **To Print a Section of Pages of the PDF**

- File / Print
- Make sure that the "Pages:" button is selected. Then in the text box/field directly below that, type in the starting and ending pages you wish to be printed, separated with a hyphen. Example: 7-8, 1-19, etc.
- Click Print.

### **To Print Only 1 Page Out of the PDF**

- File / Print
- Make sure that the "Pages:" button is selected. Then in the text box/field directly below that, type in the single page number of the page in the PDF you want to be printed.
- Click Print.
